Houston Post Speculates

**Had Oswald Planned
to Assassinate LBJ?**

CPYRGHT

HOUSTON, June 18 (UPI)—The Warren Commission is exploring the possibility that Lee Harvey Oswald intended to kill then Vice President Lyndon B. Johnson in April, 1963, the Houston Post said last night.

The Post said it learned from a reliable source that Marina Oswald, the accused Presidential assassin's widow, was questioned about this possibility in Washington last Thursday.

Assistants to President Johnson denied knowing anything about Mrs. Oswald's testimony. They said as far as they knew the Warren Commission had not

made any inquiry about this possibility at the White House.

Mrs. Oswald told the Commission, the Post said, that her husband got a pistol and said he was "going to see a visitor in Dallas" that week-end, but she talked him out of leaving with the gun.

The newspaper reported she said her husband had remarked earlier that somebody was coming to Dallas, or was in Dallas. She thought he said (former Vice President) "Richard Nixon" but he might have just said the "Vice President," meaning Mr. Johnson, and she was not sure which. (UPI)
